

We at Tanque Verde Pediatrics are committed to helping your families and your children get through this difficult time. To that end, we are suspending all well child visits for children ages five and up, with the exception of our 11-year-old well child visits. If your child needs a vaccination, we feel that the benefit of coming in to receive that well care visit outweighs the current risk. If you have a non-essential well visit scheduled in the next two weeks, you will be getting a call from our office to postpone until further notice. All well visits from newborn to age 2, four-year-old well visits, and 11-year-old well visits will be prioritized to the mornings only.

Tanque Verde Pediatrics, PC will remain open during our normal business hours to continue to provide sick and well care to all of our patients as needed.

We will continue to have mornings with well visits and noninfectious visits only. Our afternoons will be spent caring for our sick patients.

We thank you all for your patience and flexibility at this time. Please stay tuned to our Facebook and Instagram sites to receive daily notifications regarding Coronoviral care, testing, and clinic changes.

Sincerely,

The doctors and staff of TVP
