VACCINE POLICY STATEMENT

We at Tanque Verde Pediatrics feel strongly about the importance of immunizations for our children, our patients, our community and our world.

Our immunization practices are in accordance with recommendations based on science and medical research.

Due to the risk involved for our current patients, we do not accept un-immunized or under-immunized patients in our practice.

We strive to provide quality and evidence-based medical care for all of our patients. Thank you for supporting this mission by immunizing your children.

Sincerely,
The Doctors of Tanque Verde Pediatrics
