

## Speech and Language Services

Speech and language services are now available at Tanque Verde Pediatrics by our licensed Speech Language Pathologist (SLP), Natalie Clausen. Please see our website for her bio and credentials.

If you and your doctor are concerned about speech and language problems or delays, Natalie would love to meet you and your child.

Patients who make use of this service will meet with Natalie at our office to evaluate their child's needs and therapy goals. Our hope is to create a bridge service as children who need long term therapy enter the school system or AZEIP (Arizona early intervention program)

**Please note that currently this is a self-pay service**, due at the time of your visit. Most insurance companies do not cover speech therapies. We will be glad to provide you with a superbill receipt for potential reimbursement.

Below find services available:

Service	Charge	Time
Speech Evaluation This includes articulation, phonological impairment, apraxia, stuttering, dysarthria, voice	\$200	60 minutes
Speech and Language Evaluation This adds the receptive/expressive language component to the speech eval above	\$300	90 minutes
Speech/Language Treatment, individual	\$50 \$75	30 minutes 45 minutes
Speech/Language Screening/Parent Consultation Brief visit to assess need for an evaluation	\$25 *This is not usually payable by insurance	15 minutes

Please discuss these options with your primary care provider if you have questions
